

Mathematics, Grade 6

Unit V: Lesson 3

Drawing / Poster: Math Super Word Display

Create a graphic display with a math word that depicts the meaning of that word. Examine the examples of graphic "Super Words".

Select at least 10 words from the current math lessons and create "Super Words".

Create an attractive, poster-sized display of your "Super Words" for the bulletin board. Challenge others in the class to create more examples of "Super Words".

Example:
