

Mathematics, Algebra I

Unit II: Lesson C3

Puzzle / Display: **Play it Again, Sam**

Sam Loyd is known as one of America's greatest puzzlists. His puzzles give a picture of life in the United States in the late 1800's.

Research and build your own collection of Sam Loyd puzzles around a theme of your choice. Illustrate each puzzle with a collage or draw your own cartoons. Write a detailed explanation of the solution to each problem.

Display your collection along with the illustrations in your classroom or library. Put the solutions you wrote in a separate booklet or binder. Challenge other students to solve the problems.
