

Mathematics, Algebra I
Unit V: Lesson B2

Game: **Grid Lock!**

The game of "Battleship" is a popular group game that can use graph paper as its playing grid.

Devise a group game that would use graph paper as the playing board. Use ordered pairs, equations, or inequalities in your "Battleship"-type game.

Play the game with your family or classmates. Change or modify the game as necessary, keeping notes of any changes. Provide the final rules in a neatly-typed format for future playing fun.
