

Social Studies, Grade 2

Unit I: Lesson A2

Play: **Making Others Welcome**

Talk with other students and your teacher about the problems new students have when they come to your school or try to join a new group. Think of different things you and your friends could do and say that would make a new person feel part of your group.

Write a play showing how you and your friends can help make a new student feel comfortable and welcome.

Perform the play, with your friends, in front of your class. You may want to record it for other classes to watch later.
