

Social Studies, Grade 2

Unit I: Lesson B5

Letter: **Moving to a New Community**

Talk to another student or adult who has recently moved to your community. If possible, find someone who used to live in a different country. Ask the person what the old community was like and how it is different from this new community.

Read in books and magazines about a community in that country or area. Pretend you have moved to a community in that other country. Think about all the differences there would be.

Write a letter to your teacher about your new community and your new school. Tell what the weather is like, what foods people eat, what clothes they wear and what things they do for work and fun.
