

Social Studies, Grade 2

Unit II: Lesson A9

Display: **History of US Flags**

Read about some of the different flags of the United States that were used in the past. Learn where the flags were displayed and how long each was used.

Compare these early flags with the United States flag used today.

Make a display of these different flags by finding real flags or making paper flags. Write sentences to display near each flag telling about it and where it was used.
