

Social Studies, Grade 2

Unit IV: Lesson B2

Guest Speaker: **Who Pays Your Teacher?**

Learn where the money that is used to pay the public school teachers in your community comes from. Meet with your Seventh-day Adventist pastor, your school board chairman or your principal to find out how the teachers in your school are paid. Find out why the teachers in your school are paid using a different source of money.

Decide what things you learned would be most interesting to the other students in your class. Make a list of what topics you would like the pastor, school board chairman or principal to talk about in a visit to your class.

After checking with your teacher, invite your pastor, the school board chairman or your principal to come and talk with your class about the different ways teachers in public schools and in your school are paid. Give the guest speaker the list of suggested topics. Introduce the speaker to your class. After the talk, be sure to write a thank-you letter to your guest.
