

Social Studies, Grade 2

Unit V: Lesson A2

Celebration: **Piñata Party**

Read about the things that Mexicans do at parties and on feast days. Find out what foods they eat at those parties. Learn how piñatas are made and how they are used at Mexican parties.

Decide which of the things that you learned about would be most interesting and most fun for your class. Plan a Mexican party for the class that will include many of the things you learned about, including a piñata.

Make or buy a piñata that is similar to those Mexicans use. After checking with your teacher, choose a committee and have a Mexican party with your class.
