

Social Studies, Grade 3

Unit I: Lesson A4

Display: **Vacation Plans**

Using a map of the United States, consider where you might like to go on a family vacation. From a travel agency or website, get all the information you can about the locations you hope to visit.

Plot out your trip on the map and mark the places you will visit. Include at least one large city, one suburb, and one rural area. Write what you will see and do in each place.

Share your plans with the class by displaying the map and written plans on a bulletin board.
