

Social Studies, Grade 3

Unit IV: Lesson A1

Game: **The Rules of the Game**

Have a classroom discussion about the importance of rules in playing games. Then work with a selected group of students to make up a new game to play with a ball.

Formulate rules to follow in playing the game. Write down any questions about the rules. Together with the other students, revise the rules until everyone agrees they are clear.

A final revision should be made after the game is played, if any rules need to be changed. Play the game during recess periods.
