

Social Studies, Grade 6

Unit I: Lesson C2

Diorama: **Farming Methods**

Obtain information on farming methods used in Latin America 1,000 years ago. Compare these methods with the technology used today.

Prepare two dioramas that show the two methods.

Present the dioramas to the class, explaining the different methods. Attach descriptions to each diorama. Ask your classmates to decide: would the old methods be sufficient for today's populations?
