

Social Studies, Grade 6

Unit I: Lesson D1

Celebration: **Observed Holidays**

Research the holidays celebrated in Latin America or Canada. Make a list of the holidays observed. Choose one celebration to explore further, including the nature of the day, how it came to be celebrated, and the ceremonies that surround it, and food, costumes, masks, and games that are needed.

With your teacher, organize committees in your room to plan an actual celebration. Make sure they understand their responsibilities. Your job is to be a leader and keep things running smoothly and on time.

With your teacher, choose a day to actually have the celebration.
