

Social Studies, Grade 6

Unit I: Lesson D5

Report: **Cultural Exchange**

Brainstorm many examples of cultural exchange we have in our own lives between Latin American countries and the United States.

Begin a notebook that shows this information through a written report and pictures. Cover as many areas as possible, such as language, architecture, art, music, sports, and food. Prepare a presentation of influences seen around your community. You will need to get a camera, take pictures, get them printed and write a narration.

Make a presentation to the class using your photos. Put your notebook in class as a resource.
