

Social Studies, Grade 6

Unit II: Lesson C17

Script: **Television Ice Age**

Research the life of people who lived during the Ice Age. Imagine another Ice Age. Imagine how our life would change.

Write a script for a television show that would interview experts like environmentalists, farmers, engineers, city planners, and transportation experts, that would tell people how to get ready to live in an ice age. Get some of your classmates to help prepare the skit. When everyone is prepared, have the skit videotaped. Include commercials, an introduction, and credits.
