

Social Studies, Grade 6
Unit III: Lesson C7

Report: **Trends in Currency**

Make a large display on Canadian currency. Include either a collection or illustrations of Canadian currency.

Compile data showing the rate of exchange of United States dollars to Canadian dollars and to one other foreign currency. Obtain 20 sets of information, using data for every 6 months for the past 10 years or yearly for the past 20 years. Graph the data and analyze any patterns or trends you see. Attempt to discover reasons for those patterns or trends.

Write a report in which you summarize your conclusions.
