

Social Studies, Grade 6

Unit III: Lesson D7

Display: **Political Symbols**

Investigate the current political parties in the Canadian National Government to find the answers to these questions: What are the names of the parties? What are their beliefs and goals? What classes of people support each party?

Design a political symbol for each party. Think along the lines of the donkey as a symbol for the Democratic Party and the elephant as a symbol for the Republican Party in the United States. Explain, in captions below your symbols, the relationship between your symbol and the political party.

Create a bulletin board display of your political symbols.
