

Social Studies, Grade 6

Unit IV: Lesson C1

Display: **Mexico and Spain**

Research and compare Mexico and Spain. Study elevation maps, land forms, borders, location on a world map, climate, land use, resources, population density, and products.

Attractively display this information on a bulletin board using effective visuals, such as pictures, maps, charts, and graphs that you create or collect.

Allow the class to reach their own conclusions on similarities and differences between the two countries.
