

Social Studies, Grade 6

Unit IV: Lesson C5

Exhibit: **Identifying Traits**

Identify and research the major symbols and identifying traits of Mexico, including food, sports, music, buildings, mountains, rivers, and national symbols.

Design an exhibit that will effectively capture the essence of Mexico, using this information. Include the chart you designed, pictures and posters you may collect from travel bureaus, models or objects you may create, and items shared from members in the community.

Complete your exhibit for display by the end of the unit on Mexico.
