

Social Studies, Grade 6

Unit VI: Lesson B2

Menu: **Tropical Buffet**

Research the various tropical fruits that are grown in the West Indies. Seek pictures with sensory descriptions.

Organize your information by creating an attractive tropical menu that lists the fruit, gives a mouth-watering description, and shows a picture. Imagine a name for the restaurant where you would serve this menu and include that title on the menu.

With your class and teacher, help organize a Caribbean buffet that includes a few of the fruits you described. Test students' recognition of the fruit at the buffet by using your menu for reference.
