

Social Studies, Grade 6  
Unit VI: Lesson C4

Game: **Route Attack!**

Study the routes of the Spanish explorers to Latin America. Evaluate the places on the routes where pirates could effectively attack.

Make a poster-size outline map of the world. Create a game in which pirates and Spanish explorers travel along the routes. Create pirate setback cards. Establish rules for the game.

Teach a few students at a time how to play the game. Revise the rules of play as necessary. Eventually, all students in the class should have a turn playing your game. Be sure to give the game a creative name.
