

Social Studies, Grade 6
Unit VI: Lesson C7

Letters: **Pen Pals**

Locate a sixth grade class in Puerto Rico. Students in the class can correspond during the year. In the course of correspondence, students in your class should ask whether Puerto Ricans prefer Puerto Rico to be a commonwealth, a state or a nation.

Summarize the results of the correspondence and analyze the positive and negative aspects of each type of political state.

In an oral report, present the class results and your analysis.
