

Social Studies, Grade 6
Unit VII: Lesson A17

Graphs: **Rivers in Brazil**

Brazil is a land with over 1,000 rivers. Collect data regarding length, volume, depth and width of the five longest rivers in Brazil and the five longest rivers in the United States.

Create four graphs showing a comparison of these ten rivers: one for length, one for volume, one for depth, and one for width.

Display your graphs in the classroom.
