Mathematics, Grade 6
Unit X: Lesson 4   Puzzle: **Integer Cross Number Puzzle**

A cross number puzzle is like a cross word puzzle, except, instead of using letters, it uses numbers. Review the process of addition and subtraction of integers.

Design and construct a cross number puzzle using addition and subtraction of integers. Try to make it sophisticated and appealing. Construct an answer sheet to go with it.

Make arrangements to use your worksheet in class or have several students fill it out.
