

Mathematics, Grade 5

Unit II: Lesson A2

Display: **Shopping Spree**

Imagine that you have \$3,000 to refurnish your own bedroom. Look through catalogs and websites to select the furniture and other things you would buy on your spending spree. Create a display board.

On your display, illustrate the final design of your room. Include an accounting of the purchases, totaling no more than \$3,000.

Put up the display in your classroom.
