

Mathematics, Grade 5
Unit VII: Lesson C2

Report: **History of Time**

Make a brief report on the history of time. Your report should contain illustrations of early time-telling instruments such as sundials, hour-glasses, and water clocks, among others. It should also note the time periods of each instrument, the instrument's inventor(s), if known, and an analysis of why the timepiece was or was not a significant improvement over previous devices.

Share your report with the class.
