

Mathematics, Geometry  
Unit IX: Lesson 1

Application: **I Can See Clearly Now**

It is important for your safety that the windshield wipers on your car operate effectively.

Examine windshield wipers on a variety of makes and models of cars and trucks. Determine the area covered by the windshield wipers, the percentage of the windshield covered, and the percentage of the field of vision of the driver.

Write a newspaper or magazine article containing your evaluation of the models you analyzed rating them as to effectiveness. Submit your article to the school newspaper and/or a consumer or auto magazine.
