

Social Studies, Kindergarten
Unit II: Lesson 1

Scrapbook: **My Special Family**

Think about the members of your family and what they do to make your family special. Think of their jobs outside the home and their responsibilities in the home. Include yourself.

Make a scrapbook out of construction paper and decorate the cover with a picture or pictures of your family. Divide your scrapbook into sections, one for each member of your family. Draw pictures that show each family member doing his or her job away from home and in the home. Be sure to include a section for yourself.

After showing your scrapbook to your teacher, display it in your classroom.
