Unit II: Lesson 2

Table Display: **Family Recreation**

What kinds of things do you like to do with your family? Think about some of the following activities: picnics, camping, fishing, swimming, biking, and boating. Choose your favorite.

Make a small display that shows your favorite activity. Use clay to make a model of each family member. Use water in a pan for a lake or pool. Use small bits of fabric for tents. Also use small stones, shells, pipe cleaners, toy cars, toy boats, and whatever you can think of.

Arrange your model activity on a table in your classroom for your classmates to see.
