

Social Studies, Grade 1
Unit IV: Lesson A2

Report: **Flags**

Review what the stars and the stripes in the United States flag represent.

Make a United States flag out of materials, but don't draw or color it with crayons or paints. You might use glitter, yarn or macaroni instead. Attach to your flag a short report that tells what the stars and stripes stand for.

Do the same activity for your state flag.

Display your flags in the classroom.
