

Social Studies, Grade 2

Unit I: Lesson A1

Planning: **Help a Helping Group**

Visit the local Seventh-day Adventist Community Service Organization to learn what that group does to help the community. Talk to the leaders of the Community Service Organization and your teacher to learn what you and the other students in your class or school could do to help the Community Service Organization.

Select one of these ways to help and write a plan to help the Community Service Organization that includes other students in your class and/or school.

Show your written plan to your teacher. With an adult's help, form a committee and carry out your plan.
