

Social Studies, Grade 2

Unit I: Lesson A3

Skit: **Music or Madness**

Listen to a band or choir and watch them perform. Think about what the music might be like if each person sang or played what they wanted to at any time they wanted to. Think about how different a choir or band sounds than one person singing or playing alone. Talk with other students and your teacher about what is necessary for a music group to make music beautiful.

Write a skit showing that a group working together to make music is better than one person alone. Include your ideas about what is necessary for a group to work together.

Present the skit, with your friends, for a worship or chapel program for your class or other classes.
