

Social Studies, Grade 2

Unit I: Lesson B2

Questionnaire: **A New Club**

Make up a questionnaire to find out which other students share the interests or hobbies with you. Ask the students what they would like to do in a club. Give the questionnaire to students in your class. Also ask adults to suggest things to do in the club.

Organize the information you have collected. Get a few interested students together and plan the time and place of meetings for your club. Make rules for the club and requirements for members. Together list some of the activities that you could do in the club.

Make a handbook that includes rules, requirements and meetings. Make up an advertisement and sign-up sheet telling about the new club. Give it to people who are interested or post it on a bulletin board.
