

Social Studies, Grade 2

Unit II: Lesson A1

Calendar: **Special Days**

Obtain a calendar that includes all the American and religious holidays. List the birthdays of each student in your class or school. List all important school events like music programs and vacations.

Read about the meaning and celebration of at least one holiday for each month of the year. Think about an unusual way to show the meaning of each holiday in a painting or drawing. Draw or paint a picture for each month of the calendar, showing the meaning or importance of one of the holidays in that month.

Make a calendar, to be used in your classroom, in which you include all the holidays, student birthdays and important events you listed. Include any other events you want to add.
