

Social Studies, Grade 2
Unit II: Lesson A2

Report: **Fireworks**

Research the history of fireworks. Learn where fireworks were first used. Learn about the different celebrations where fireworks are important. Find out what your local laws are concerning the kinds of fireworks that are allowed. Read about what damage has been caused by fireworks in your community.

After you have finished your research, decide which items are most interesting and most important. Organize your information.

Write a report and read it to your class, if possible. See if you can demonstrate some "Safe and Sane" fireworks.
