

Social Studies, Grade 2

Unit III: Lesson A3

Bulletin Board: **Popular Careers**

Take a survey to learn what careers students in your classroom are interested in.

Select three to five of the most popular careers. Research those careers to learn what the people in each career do. Learn what training and education are needed for each career. Learn what the good and bad things are in each career.

Prepare a bulletin board on careers. Include illustrations and reports on each career. Make sure the bulletin board has a title and clear label.
