

Social Studies, Grade 2

Unit IV: Lesson C1

Categorize: **Community Service Workers**

Research different types of community service workers in your community. Include those jobs that are paid with tax money or are a public or private utility such as telephone, garbage, and water. Challenge the other students in your class to help you add to the list.

Plan some way to group the workers into different categories.

Organize the list by categories and display your list in an unusual way in the lobby of the school.
