

Social Studies, Grade 2

Unit VI: Lesson A2

Game: **Sport of Another Country**

Research what sports are popular in another country. Choose one of the sports that is new to you or that you don't play often and find out how to play it.

Plan how you will teach that sport to interested students in your class. Decide what rules you need to teach. Decide if you need any special equipment or a special playing field. Decide if you might need to change any rules or equipment to make it possible to play the game at your school.

After checking with your teacher, teach your friends to play the sport at school. Collect any equipment you need. Arrange for a playing field if you need it. Practice and play the game.
