

Social Studies, Grade 2  
Unit VI: Lesson A5

Display: **The Perfect Bed**

Read about the kinds of beds people sleep on. With other students, brainstorm all the different kinds of beds you can think of. Think about beds on spacecraft, on ships, in hospitals, and camping. Collect pictures of as many different kinds of beds as you can find.

Plan some way to organize your collection. Think of reasons why there are so many kinds of beds. Think about what all beds have in common. Decide what makes a bed a good bed.

Design a bed that you think would be perfect. Draw a picture of your bed. Write a label for your design that explains why it is the perfect bed. Display your design with the collection of illustrations of beds. Make a title for the display that explains why there are so many different kinds of beds.
