

Social Studies, Grade 2

Unit VI: Lesson A6

Research: **The Art of Karate**

Research the art of karate. Visit a class where karate is taught. Learn about the origins of karate and how it was used in early Japan. Is karate the same today?

Make a list of things you think the students in your classroom or school would most like to know about karate.

After checking with your teacher, invite someone who knows karate to come to your class and give a presentation and demonstration. Give the person a list of topics you want covered. Introduce him or her to the class. After the demonstration, write a thank-you letter to your guest.
