

Social Studies, Grade 2

Unit VI: Lesson B1

Display: **Clothing Around the World**

Research the weather in Colombia in December. Find out what the weather would be like in Japan in December. Find illustrations that show the kinds of clothing that people wear in each of those countries.

Decide how the place you live makes a difference in what clothing you wear. Decide what kind of clothing the people would have to wear in Colombia and Japan in December.

Make clothing for dolls that would be like the clothing that a person would wear in Japan and in Colombia in December. If necessary, you can make and use paper dolls. Write a few sentences telling why the dolls have different kinds of clothes at the same time of the year. Put the sentences on a card next to a display of the dolls.
