

Social Studies, Grade 3

Unit IV: Lesson A2

Rules: **Suggestions for Student Handbook**

Read your student handbook and observe other students to determine which rules for ensuring student safety are not being followed.

Write down suggestions as to how specific rules may be enforced more efficiently for the safety of students. In addition, write down any new rules that you feel are important to be included and enforced at your school.

After carefully organizing your suggestions in writing, submit your work to your teacher or principal for consideration.
