

Social Studies, Grade 4

Unit II: Lesson C2

Itinerary: **Two-week State Tour**

Imagine you have been asked to prepare a guideline for a two-week tour of your state for a group of foreign exchange students.

Request information from travel clubs and various Chambers of Commerce throughout your state. After you have analyzed your materials, plan a two-week tour, using a state map. Start your tour from your home town. Give attention to geographical features as well as cultural points of interest. Include accommodations as well. After you have plotted out your tour on a state map, then design and produce your two-week itinerary.

Share the itinerary with your classmates. Verbally lead them through your state on a two-week tour.
