

Social Studies, Grade 4

Unit III: Lesson C3

Presentation: **Church Growth**

Brainstorm with other students and collect ideas about what fourth grade students can do to assist the conference in areas of church growth.

After analyzing the possibilities, arrange to have a guest from the local conference office—perhaps the youth leader, educational superintendent, or even the conference president—visit your classroom to talk about ways fourth grade students can help church growth.

Following the presentation, lead out a discussion and question-answer session with your guest. Make plans for further action. Write an appropriate thank-you note following your guest's visit.
