

Social Studies, Grade 8

Unit III: Lesson A5

Speech: **Defeat Unfair Laws!**

Research what options the colonists had when they were faced with laws they considered unfair. Determine what options United States citizens have today when they are faced with a law they consider to be unfair.

Imagine that you are a colonist speaking to a group of townspeople, and you are emphasizing the options available to defeat a law imposed by Great Britain. Imagine that you are a private citizen speaking to a community group, and you are emphasizing the options available to defeat a state statute.

Present both speeches to the class.
