

Social Studies, Grade 8

Unit IV: Lesson B5

Role Play: **Washington's Advice**

Imagine that you are a relative of George Washington, and that you were there when he gave his farewell address.

Imagine that you are telling someone about the ideals that Washington advocated. For example, cherish and guard freedom, avoid forming political parties, try not to build up a national debt, and avoid permanent alliances with foreign countries. Give your opinion as to how successfully the United States has followed Washington's advice.

Role play Washington's relative for your class.
