

Social Studies, Grade 8
Unit IX: Lesson B8

Debate: **The New Deal**

With another classmate, research the success of the New Deal. Beyond your textbook and the Internet, resources that can help you are newspaper and magazines articles and political speeches and communications from the 1930s.

With your classmate, debate the success of the New Deal. Ask the class to take notes during the debate and be prepared to question the debaters.

The class members can then decide whether they think the New Deal was a success or not.
