

Social Studies, Grade 8  
Unit V: Lesson D4

Interview: **Early Adventism**

There are many who have been long-time members of the Seventh-day Adventist Church or have family backgrounds in the Church. Contact one of these people and record their memories.

Find out as much as possible about the individual before holding the recorded interview. This can be done through pre-interviews, conversations with others who know the person, or doing research into various written records. In your interview, find out as much as possible about the early Seventh-day Adventist Church.

Play the recorded interview for the class.
