

Social Studies, Grade 8
Unit VI: Lesson B4

Presentation: **Forms of Prejudice**

Study the difference between caricatures and stereotypes. Define the difference and study the inferences drawn from careless observations of society's behavior.

Find examples of caricatures and stereotypes. Make some visual aids that explain the concepts. Include examples of a caricatures and a stereotype in your visual aids to show how these are forms of prejudice.

Deliver your presentation for the class. Lead a discussion regarding the general activity of your classmates in each of these behaviors. Bring the class to closure on what behavioral changes you can all make to avoid using caricatures or stereotypes as prejudice.
